* Some job offers e.g. Junior Product Manager, ENERGY EFFICIENCY SALES ADVISOR, Product definition and innovation manager (R&D), Renovating buildings for improved energy sales agent, TECHNICAL ARCHITECT / ENERGY EFFICIENCY CERT are too narrow to be regarded as separate profession or too general e.g. ENERGY ENGINEER. These character of offers is rather part of other, core qualification. GreenSkills European common training course is going to cover universal, major professions/skills referring to European demand. Moreover some professions refer to production not contractor works.
